News Release

New Riotous Rainbow party decorations - guaranteed to make grown-up birthday parties go with a bang

A new range of vibrant, colourful and eye-catching adult party decorations from party specialists The Last Detail is guaranteed to make birthday parties go with a bang.

From rainbow poppers and torpedoes, to ballistic balloons and sparklers, the Riotous Rainbow range has everything to ensure that birthday celebrations are a roaring success.

The table torpedo is a superb ice breaker and a real talking point for every party table! Just light the fuse and watch as streamers, screaming rocket balloons and scatter fetti are thrown into the air.

With inexpensive candy-striped candles at just £2.95 for 24, it doesn't matter how old you are – you just need enough space on the cake! Alternatively - especially if you are keeping Mum about your age - you might just prefer the 13-candle set spelling out "Happy Birthday" at £4.00.

The "whimsical wonder ball" is a ready-made novelty pass-the-parcel game for adults containing more than 90 metres of tightly packed crepe paper, layered with toys and jokes.

"It's great fun unravelling the 'wonderball' and watching the ribbon change colour as you go along," says Kaley Gardiner, founder of The Last Detail. "It's a great alternative party game for dinner parties or hen nights – especially after a few drinks!"

A pack of 20 multi-coloured poppers containing shiny streamers gives you the "pop" without the hangover, and comes in a novelty champagne-shaped bottle at £5.49.

There's a choice of sparklers too – from a small tin containing 20 sparklers to individual age sparklers, they are sure to set the sparks flying.

"This whole range has been designed with birthdays in mind," says Kaley. "It allows you to celebrate birthdays like you used to when you were little but with a touch of adult glamour."

All products are available to order online at www.thelastdetail.co.uk and can be found under the 'party fun/co-ordinating party ranges' section.
